

Resume:

Biography; Early years in Fort Worth, Texas. Moved to Oregon in January of 1976. Open my first studio after graduation in my garage in Medford then built a studio at my home in Jacksonville the following year. I have studied all types of art, but worked mostly in clay until 1994 when I began to focus more on my painting and printmaking. Painting continues to be my dominate form of expression but I enjoy working in other mediums from time to time.

Artist's Statement: My art has always been about giving solid form to ideas and feelings that further my understanding of myself, communicate with my viewers and explore how art at once creates and comments on contemporary culture.

Education: University of Texas: Austin, TX

Interior Design, 1967-1971 East Texas State University: Commerce, TX B.S. in Art; Major in Ceramics; Jan 1974-Dec. 1975
