Artist Statement

I create watercolor paintings capturing the unexpected beauty of commonly overlooked subjects. I isolate a blade of grass from an ocean of green to reveal its uniqueness. I dwell on the warmth and beauty of a rusty car as nature reclaims it. I reflect on the weathered grooves gouged in an old wooden door. I wonder at the orchidlike character of a weed. I celebrate creatives in object portraits of their environments. I am compelled to share my observations with the goal to stimulate in my viewers the desire to look for the beauty that exists everywhere.
