Bio

Leona Gamble is a fine artist who specializes in figurative oil paintings. Her oil paintings are contemporary realism, or contemplative naturalism; with a subtle weaving of feeling, dream, or memory that has shifted with time into each piece. Her recent series, Transitions, explores the subtle layers that exist in each of us while contemplating the relationships between the inner mindscapes and outer landscapes; juxtaposing and reflecting the subconscious with all of its complex layers with the clarity of the natural world.

Leona is an emerging artist with a BFA, and her artwork can be found in private collections throughout the United States and internationally.
