

2 Day Pen - Ink & Wash Workshop

with European Artist

Oct. 14 - 15

Allan Kirk

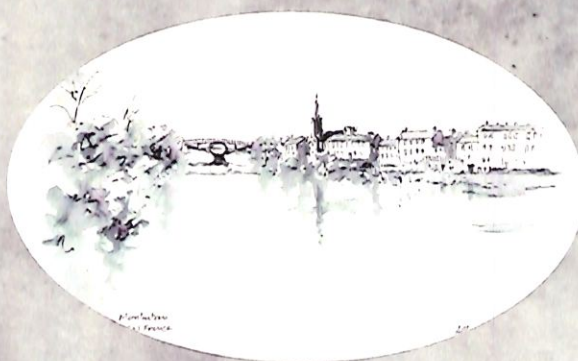

Pen and Wash Sketching, Anywhere Any-time...

I teach all over the world and always carry my pen, Pentel Aquabrush and sketchbook with me. Such easy flexible tools enable me to work wherever I am. This freedom and flexibility allows me to build a sketch book that is not only a rich source of material for later studio work, but in itself is a source of finished sketches and a journal of memories.

Every student will create two sketches each day. In a "show and tell" manner, I demonstrate my passion for pen and wash. In this workshop I will take students through the overwhelming urban cityscape with pen and wash. Working in the classroom students will sketch downtown Victoria and the south of France.
