"Sichon plays with formidable virtuosity on innumerable instruments." —Jerusalem Post

Ukraine-born Boris worked as a percussionist with the Leningrad Symphony Orchestra and then traveled the world with a variety of music, dance and theatre groups, collecting ethnic instruments at every stop along the way. Those who attended his first concert here last March were ecstatically demanding a return engagement before he even left the building, and those who missed it were regretting it.

Here is the second chance! And this time you can, if you want, join Boris in the magic of music-making as he teaches you the ancient art of playing the Celtic bones and introduces you to some of his other fascinating instruments.

Great fun for the whole family...and definitely a "get-your-tickets-early" event!

There will be delights and surprises galore as we begin with solo piano interpretations of Johann Sebastian's music by the astonishingly capable hands of internationally acclaimed concert pianist **SARA DAVIS BUECHNER**. We then present moving vocal and ensemble renditions (including the beautiful Bach solo alto cantata No. 170) by some of Victoria's finest musicians (vocalist **KIM GREENWOOD**, keyboardist **TONY BOOKER**, clarinetist/oboist **RAINER ROTH** and double bassist **ALEX OLSON**).

In the second half—"the future"—we will flip through time to diverse and distinctive destinations (including famous and well-loved show tunes, folkloric tunes, original compositions by **TONY BOOKER** and a captivating contemporary piano/dance duet created by **SARA DAVIS BUECHNER** and Vancouver dancer/mime **YAYOI HIRANO**).

The flow of time and music throughout this exhilarating evening will be colourfully and tastefully punctuated by former Leningrad Symphony Orchestra percussionist and mesmerizing Ukrainian multi-instrumentalist **BORIS SICHON**.

And...in keeping with the experiences of the many time travelers who endeavour to reach the future...there may be unanticipated turns along the way that temporarily send us to remote musical antiquity instead...
